NICHOLAS MULLEY
Founding Partner / Director

Nicholas has been living and working in Asia for 20 years and counting. As a pilot by education and with a degree in Aviation, a career that involved travel was always on the horizon.

After starting his journey in Myanmar, Nicholas has been fortunate enough to have operated in almost every destination across Asia and in particular, South East Asia. Throughout his career journey, he has lived and operated in Yangon, Ho Chi Minh City, Beijing, Shanghai and Bangkok, which he now calls home.

Having been responsible for the successful expansion and operation of a leading DMC in Asia has allowed him the opportunity to gain a tremendous amount of experience and build a wide internal network with an ongoing passion that he brings to Asia Concierge.

PAUL LEVRIER
Director

Paul started his career in travel and tourism in the early '90's after already building considerable knowledge and experience of Asia. Paul was one of the first Western visitors to Vietnam prior to opening to tourism in 1988 and has been a pioneer of travel to the region since then.

He became a driving force in the growth, expansion and reputation of a leading destination management company in Asia from his base in Ho Chi Minh City for 20 years and is credited with its brand recognition even today.

Paul's qualities as a creative force and a director that can cross multiple boundaries and cultures with a wide skillset has led him to start afresh with Asia Concierge.

ANDREAS GROSSKINSKY
Indonesia Country Director

Andreas initially began his a travel career in the hotel industry as an apprentice in a small town in South Germany, from where, after a training time in New Orleans, USA, he developed a deep interest in Asia.

In 2002 he dived head first into his first opportunity in inbound management in Myanmar, just when the country was beginning to open up. Since then he has assumed posts in Oman, Malaysia and finally Indonesia, where he has since settled on the island of Bali for ten years.

Working in senior management positions in Indonesia, Andreas, like many of us, saw an opportunity for a more refined and specialised travel venture that could add a high degree of value to the industry and where he could play a part in repositioning Bali away from the reliance on large scale tourism.
